

Many of you have inquired of us as to this ministry's position on the biblical year. Before I go into our position on this matter, I want to 1st tell you that we are in no way trying to sew confusion, or cause division in the body of messiah. We all know that the devil is a liar, and the truth is not in him. We are also not trying to step on the toes of other believers. We are, and always will be, under the divine authority of rabbi Moshe. We are just sharing what we believe as we know it right now.

I'LL take you to the book of Matthew chapter 24 beginning in Vs. 3 where his talmidim asked Yahshua what would be the sign of his coming. In 4-5, he tells us to see that no man deceive us as a body of believers: Telling us that many would come in his name claiming that they are the messiah, and that they would deceive many. In 6, he tells us that there would be wars and rumors of wars. This is happening as we speak, with the wars in Afghanistan, Iraq, and other places around the globe. He stresses to us as his body to see to it that we are not alarmed, that such things must come. He goes on to specify that the end is not yet. In 7, he says that nation will rise against nation and Kingdom against kingdom. We see this happening. He tells us that there will be famines and earthquakes in many places, we see this happening today. Yahshua tells us plainly that all of these things are the beginnings of birth pains/shivleah hamashiach. I believe that this is where we are right now as Israel. Nine tells us that we will be handed over to be put to death, and you will be hated by all nations because of him. This has not happened as of yet in this nation. In order for us to be hated by all nations for his name, which is his true Hebrew name YHWH, the name has to be acknowledged around the globe, and this clearly has not happened. Right now our movement is very small, and we haven't fully come to understand, and walk out the biblical solar lunar calendar in unity. This is another witness that we are not yet there. His name hasn't gone out to the entire world, and the biblical solar lunar calendar hasn't been readopted. In 10 he speaks about a great turning away from the faith, and in order for there to be a great turning away, there has to be unity or a great togetherness first. So again this clearly lets us know that we are not yet there. 10 further goes on to state that many believers not worldly folks will betray and hate each other. 11 talks about many false neviim appearing and deceiving many. This is already starting, but I believe that this is not yet full. VS 12 speaks about the love of many waxing cold, because of the wickedness of the body. You might ask me why has the body gone wicked. Well we must look at whom Yahshua is speaking to. He is speaking to his talmidim, which means that he is imparting wisdom, and instruction to the future leaders of the body. He is not speaking to non-believers, but believers in himself. This clearly means that his warning and instructions are for us as believers today. After delivering all of this bad news, 13 commands us as a body to stand firm, and that those that do will be saved. In 14 He clearly states that the besorah of truth "will be preached in the whole olam", as a testimony to all nations and then the end will come." Now we must ask "if the besorah has been yet preached in the whole world"? Of course with modern technology this is possible; however I don't believe that this has yet happened. I believe that there are still places that have yet to receive the true besorah of truth, and to receive the true name of our master YHWH. Even those nations who name the name of Jesus are included in this. They pray in the name of Jesus, they work in the name of Jesus, but he is clearly speaking about the true besorah which is the Torah, and he is talking about his living true name which is YHWH. In 15, Yahshua says that when

we see the abomination of desolation standing in the holy place, which is the temple, then he goes on to say for us as the body to understand that we are close. This tells me that there must be a temple standing, not an altar, but a full temple complex in operation for the devil to take over. In 16 he tells those who are in Yahudah flee to the mountains. He didn't tell us in the U.S. to flee; he was very specific in telling those in Yahudah to flee. 21 states that there shall be great distress such has never been seen even from the beginning of time. This verse tells me that we are not yet in the tribulation period. This is a key. If we don't see great distress, we as believers should be living our lives before YHWH without extra worry, or concern to things around us. Of course we are to watch, but we are not to get bogged down in these things. In 22, Yahshua himself states that things are going to be so bad, until he has to shorten those days so that the elect can be saved. 24 is an added warning to us that many false mashiachs and prophets will come and do great wonders to deceive even the very elect, which he states will not be possible. 25 is an affirmation again of his warning saying that he has told us as a body ahead of time, so that we will know and understand. Not get preoccupied, but know and understand that these things will come. If you look in the above scriptures you can see that there are many things that first must happen before that period can even begin. While things are under way It's my belief that we are still in the birth pangs/shivleh hamashiach. Yahshua tells us in Matthew 24:36, that nobody knows the day and hour of his return, only his father. He does warn us that there are signs and behaviors that will be in operation in VS 37, 38, and 39. While we don't want to just shake off the knowledge and understanding that he is going to return, we want to use wisdom as well. This is backed up in 42, where he commands us to watch as a body so that we can see the signs and are not caught unawares.

So how do we come to 5971? We know and understand that the Jewish calendar is off 205-240 years. If we add 240 to 5771, we would be into the next millennium which is 6011. I can't yet see, and don't have my beautiful glorified body. If we add 205 to 5771, we come up with 5976. We decided to go 200, because Yahshua says that we don't know the day or the hour of his coming. We know certain things about his coming but we don't know everything. We know that the days and the moons are absolutely correct; we just don't know the year for sure. So if you see "5971 roughly", this is what is going on. Don't fear we haven't gone out in left field, never to return; this is just a rough estimate of what we personally believe. Now understand that we again are under divine authority, and this has no effect on our operation with that authority in our lives. Always keep your eyes on Yahshua. Do not freak out, but, get ready for what we know must come.
