

The End of the Exile and the Usefulness of the Jewish Calendar of Exile

By The RAMYK

Moon 6-Day 7-5992 Since Creation

What I am about to say here will shock both Saturday and lunar Shabbat keepers.

While the Jewish calendar is an overall disaster, there is one good thing that did come from it, which I as a Jew really do appreciate and recognize. And if you promise not to tell anyone, I will confess that even I as a Biblical lunar Shabbat keeper, am quite grateful for it.

You see, Yahuwah knew that the House of Judah and even the House of Israel/Efrayim, would be in the Diaspora/galut among the nations. And the only way to prevent them from disappearing from the world's history through assimilation, amalgamation, intermarriage and other gentile pulls at them, was to have a uniform method of calendation for the last 2,000 years. In other words, because of the Hillel the 3rd Jewish calendar of exile, Jews in Spain, Argentina, Poland, Germany, China, India, or anywhere on earth for that matter, would all be in uniform agreement; thus all of Jewry, though worlds' apart, were in fact held together by a common method of false Saturday reckoning and false calendar feast keeping. **While in retrospect we realize that this unity was a unity based upon error, I do firmly believe that Yahuwah used it AT THE TIME to preserve and guard His people from annihilation through their own lustful pulls to the appeals of unrestricted Gentile practices; thus their utter disappearance from the earth was prevented in great part by the Jewish calendar and for that, we all owe a debt of gratitude to the Talmudic rabbis.**

HOWEVER, the exile either has come to an end, or is near the very end of the process bringing it to an end. Some believe that when Israel became a Jewish state on May 14 1948 the exile was officially over. Others believe that Israel's recapture of Jerusalem in June of 1967 as the undivided capital of Israel was the official end of the exile. Others believe that these points were the signal that the exile is soon coming to an end. In any case, all agree that the new millennial about to begin will see the Messiah's return and His rule and reign commencing.

That is the signal that the usefulness, or use of the Jewish calendar of exile used by Yahuwah to preserve His people, has, or is in the very process of being brought to an end. THAT, MORE THAN ANYTHING ELSE EXPLAINS THE RESTORATION OF THE SOLAR-LUNAR CALENDAR in our lifetime, that was used by our patriarchs Abraham, Isaac and Jacob. Despite the critics, the lunar Shabbat was the only way Shabbat was determined by the moon by the most ancient Hebrews and is not a new doctrine, but a restored truth, showing and teaching us that Yahuwah IS BRINGING THE EXILE TO A FAST RAPID CLOSE, IF HE HAS NOT OFFICIALLY DONE SO YET!!!

Close-The clearest errors of the Jewish calendar can be seen in this Roman year's Jewish Rosh Hashanna and Jewish Yom Kippur celebrations!

Rosh HaShanna-According to Ezekiel 46: 1-12 we see the eternal calendar of the coming millennium kingdom being restored. **Yahshua is the same yesterday, today and tomorrow, so we can learn the eternal truths from the set apart services scheduled to be held in the rebuilt Moriah Temple.**

We see clearly that the gates are closed for set apart assembly during the 6 day work week and only open on Shabbat and Rosh Chodesh-New Moon Day. That means that Rosh Chodesh and Shabbat are 2 separate days and can NEVER fall on a weekday of 6 work days. And neither can a Rosh Chodesh fall on a Shabbat, as it often does on the Jewish calendar.

Well if you just celebrated Rosh Hashanna in 2010, or are about to celebrate Yom Kippur on “Saturn Day-Shabbat,” you not only have a problem, but are in DIRECT contradiction to YHWH’s revealed Word. Rosh HaShanna fell last Thursday Sept 9th, a THURSDAY, part of a Roman 6 day work week and normally part of the Jewish 6 day work week. **As we read in Ezekiel 46 this cannot be, as if Jews try and show up on their false Rosh HaShanna in the kingdom, assuming some make it, they have a problem. Can you see it?**

The gates of the millennial temple will be closed for public assembly during the 6 work days! They will not be able to assemble. Now, according to Leviticus 23: 23-25, the Feast of Trumpets-Yom Teruah is celebrated on the Rosh Chodesh or Yom Echad of the 7th moon. Now we know that a New Moon can never fall on a 6 day work day, or a 7th day Shabbat. **Yet last Rosh Hashanna last week fell on a forbidden WEEKDAY!!! New Moons are not Shabbats and not weekdays and work, cooking and travel are allowed. Only 2 requirements must take place on Rosh Chodesh. Public assembly with the saints and a cessation of commerce, buying and selling (Amos 8:5). The only Rosh Chodesh where ALL work is prohibited is one out of 12 or 13, namely the Rosh Chodesh of the 7th moon Yom Teruah.**

Again if Judaism does not return to the eternal calendar of the patriarchs soon, when they come to worship in the kingdom in just a few short years, the gates will be shut for assembly on their Rosh HaShanna, as their Rosh HaShanna ALWAYS FALLS ON A WEEKDAY EVERY YEAR!! Yahuwah is thus showing us that in order for Jews to end the mentality of exile and be prepared for the kingdom, now is the time for the exile calendar to end along with the exile, as it no longer is useful for our preservation, as a return to the land of Israel is what’s needed for our full end time preservation at His return.

Yom Kippur-Also the Day of Atonement is another proof of just how wrong the Jewish calendar is every year friends. As we know, 7th day Shabbats are 8,15, 22 and 29 of the month, as FIXED in the heavens; thus day 10 month-moon 7, or Yom Kippur, is always 2 days after Shabbat on Yom Shanee (2nd day of the week) and cannot float to different Roman or Jewish days. You see how the Jewish calendar is the one that truly floats and not the astronomically fixed solar-lunar one?

As an annual moed, Yom Kippur can NEVER, repeat NEVER, fall on a weekly biblical Shabbat. Well this year those who still follow the Jewish calendar, you will be celebrating Yom Kippur on the “Saturday Shabbat, or allegedly 2 Shabbats on the same day; one 7th day Shabbat that is supposed to fall on day 8th of the month and one annual Shabbat on the 10 of the month, both held on the same day!!!!” Well which day is Yom Kippur? If it’s the 10th day you cannot call it the 8th day, or Saturday Sabbath. Yom Kippur like Rosh HaShanna can never fall on a weekly Shabbat. The rabbis being slick found that by ignoring the true Shabbat, Yom Kippur often has to be postponed to Thursday or Monday as it cannot be allowed to fall on a Jewish Friday or Sunday. That would mean the Jewish people have no time to prepare food in between Saturday Shabbat and Yom Kippur, so they just wave the hand and postpone Yom Kippur (just) a day, so they have a day in between to cook! Now look at the greatness and brilliance of YHWH’s ways! **Weekly Shabbat is always day 8 moon 7, so day 9 is COOKING and PREPERATION DAY and the 10th comes, fasting occurs and all the “break the fast food” was prepared before on day 9, in between the weekly and annual Shabbat, without postponing heaven’s declarations!!!!!! Shema Yisrael!**

Rosh HaShanna and Yom Kippur are just 2 more major reasons added to a list of hundreds to forsake man's reckoning and return to the calendar of the patriarchs and Noah written in the heavens.

We hope you are still open to a return to the patriarchal calendar, seeing the exile of our people is clearly over, or on the precipice of such ordained termination.
