

The Sun Does Not Move & Scripture Is Not Threatened

By The RAMYK
Month 11 Day 4 5992

The sun orbiting the earth is an impossibility...why?

-The sun would scorch the earth and life would be like Mercury impossible. According to NASA the sun is 109 times bigger than the earth and over 100 earths could fit into the sun. Some of the streams of gas itself are bigger than the earth. Some geocentric models even move the sun 2 orbits away from the earth placing Venus and Mercury closer to the earth **in orbit, in order to keep the sun's distance far enough away, so as not to scorch the earth. This realignment is pure realignment fantasy, away from the reality that the Sun, Mercury, nor Venus orbits the earth.** Modern telescopes like Hubble show the alignment in the above diagram to be the correct one.

-With the layout of the planets if the sun orbited the earth (a huge orbit at that) it would cross with the orbits of Mercury, Venus and Mars and at some point collide causing a disaster throughout the solar system. Planetary alignment would be destroyed.

-If the sun orbited the earth the gravitational pull would suck the earth right into the sun's surface causing the end of the earth. Scripture teaches that the earth abides forever. That's why YHWH put the sun FAR from the earth.

-If the sun is 3 or 93 million miles away it could not orbit the earth in 24 hours....a mathematical and practical impossibility, as the moon takes 29.5 day and is much smaller and lighter than the sun.

-If all planets orbit the sun and only the earth is orbited by the sun, we have centrifugal chaos and gravity collapse, not to mention a YHWH of disorder.

-If the sun orbits the earth, and all other planets orbit the sun, then by definition all planets orbit the earth, as well. This then makes the earth the center of the solar system, yet the earth is in need of the sun not vice a versa. These planets have no need of earth's

light as the earth cannot give/produce its own light. Why would planets orbit the earth, while they also orbit the sun?

-If the sun orbited the earth, it would by definition become one of its exclusive moons and could not share its light with other planets anymore than the moon can be a sun to other planets in orbit.

-As to the Hezekiah problem (Isaiah 38:7-8), I believe YHWH moved/repositioned the sun 10 degrees backwards (that's the only time the sun moves, is when YHWH miraculously moves it, making it an even bigger miracle with King Hezekiah), as we and He/YHWH both use a SOLAR-LUNAR calendar and the result is the same. **The moon and earth continued their orbits uninterrupted. The resulting difference between the sun and moon is what caused the 29 day month.** This is clear.

-The same applies to Joshua 10:13. **YHWH froze the orbits of the moon and earth joining the stationary position of the sun. This it is written, the sun and moon stood still and stayed in place respectively.** Once it was time to proceed, the orbits of the earth and moon were unfrozen. **From earth's perspective the sun stopped,** not making its east to west "circuit." **Always remember that a circuit is not an orbit.** A circuit goes from a clearly defined point A to point B in a circular, or semi-circular motion. An orbit is a never ending movement, without a defined starting point A and a concluding point B. The Bible clearly makes this differentiation, even if man cannot.

In all the following Scriptures we see references to the sun and its rising, setting, or circuiting IN THE EARTH'S SKY. NEVER IT'S COSMIC ORBIT. Please look them all up on your own. The rising and setting is caused by the view from earth, as earth rotates on its axis one complete turn every 23-24 hours. **This is why the sun appears to move across the sky.** There are a few verses where the sun is described as circuiting the sky from one end to another. Is this true? Yes and no. Yes from the view of earth, as the earth's movements causes the sun to rise in the east, set in the west and cause a circuit in the sky between east and west in 12 or so hours. This is all based on views and appearances from earth. **There are no Scriptures describing an orbit of the sun around the earth. See for yourself. This does not lessen the accuracy of the Bible, or bring it into question. No not at all. It affirms the truth of Scripture that the sun's 3 actions, circuiting, rising and setting, are all referring to VIEWS from the orbiting and rotating earth, not the orbit, rising, setting, or circuiting of the sun itself.**

These verses are listed below, **as they appear in some way to indicate a movement of the sun.** Other references such as the worship of the sun and the daily normal light of the sun are not included in this overview.

Tanach-Genesis-Malachi:

Genesis 1:1 Beresheeth bara Elohim Aleph-Taf ha shamayim v-et ha-aretz. In the beginning Elohim Aleph-Taf created the heavens and the earth.

Therefore the heavens containing the sun and moon and all the planets along with the earth were created at the same time. The sun did not precede the earth and the earth did not precede the sun. **NEITHER the sun nor the earth is the center of our known universe. YHWH the Creator and Sovereign Controller is THE CENTER! All orbits are subject to Him alone!**

As we have learned elsewhere the sun and moon were REKINDELED in Genesis 1:3-5. **One cannot have night and day without the sun and moon.** In verses 14-16 of Genesis chapter one, these 2 great lights were given their assignments to rule day and night and to determine feasts, appointed times-Shabbats included, years, days and nights. **The point being that the sun and earth were created in Genesis 1:1 together. Later the sun was rekindled and after that on day 4, it was assigned its role.** So to argue that the earth was created before the sun and that therefore the sun must orbit the earth is blatantly false. Those who argue in this mode do so to try and prove that the sun orbits the earth, making the solar system geocentric, or earth based. If the premise is incorrect, so will the conclusion. **The Bible does not teach a geocentric-earth centered, or heliocentric, a sun centered universe. It teaches a YHWH centered universe based on His Sovereignty and genius.** Just because one believes what is plain, that all planets including the earth revolve around the sun, does not make one a “sun worshipper,” pagan, or denier of the inspired words of Scripture. **It is mankind’s lack of understanding and limited finite knowledge that has failed to balance the celestial facts with Scripture, as they do not contradict each other.**

Gen. 15:12, 17, Gen. 19:23, Gen. 28:11, 32:31, 17:12. Exodus 22:3, 22:26. Numbers 2:3, 21:11, 34:15. Devarim 4:41, 47, 11:30, 16:6, 23:11, 25:13, 15, 34:4.

Joshua 1:15, 8:29.

Joshua 10:12-13 meaning hold your positions relative to earth. Both earth and moon stood still and thus sun’s position stood still, as the sun does not literally move. Both the earth and moon frozen in orbit and thus sun, earth and moon all held positions.

Joshua 10:27, 12:2, 13:5, 19:27, 19:34. Judges 5:31, 8:13, 9:33, 14:18, 19:14.

First Samuel 2:24, 3:35. Second Samuel 23:4, 2nd Kings 3:22. Isaiah 13:10, 24:23.

Isaiah 30:26-**If the sun orbits the earth (enough to wipe out man with its current heat) and will become 7 times brighter/hotter how can man survive? The Great Tribulation will judge mankind, not wipe him out!**

Isaiah 38:7-9-YHWH froze the earth and moon’s orbit and **then moved the sun and moon back 10 degrees.** All three, the sun, moon and earth, were then frozen and the sun and moon moved 10 degrees backwards, until the earth and moon were released back into orbit again. A true miracle that today has given us the 29 day “sick” month, a sign that YHWH is A-THE healer and can heal us, as He did with King Hezekiah.

Isaiah 41:25, 45:6, 49:10, 59:19, 60:19-20. Jeremiah 15:9, 31:35-36. Ezekiel 32:7, Daniel 6:14, Joel 2:10, 2:30-31, 3:15. Amos 7:9, Jonah 3:8, Micah 2:6, Nahum 3:17, Habakkuk 3:11, Micah 1:11.

Psalms 19:4-**The sun appears to circuit the heavens, NOT orbit the earth. Big difference!** Psalm 50:1, 71:5, 72:17, 73:16, 83:11, and 89:36. Psalm 104:19, the sun goes up and down based on the earth’s rotation. Psalm 104:22, 113:3, 136:7-9, 148:3.

Job 9:7. Ecclesiastes 1:4-5-the earth abides forever and the sun goes up and down in the sky caused by earth’s rotation not the sun’s orbit. Ecclesiastes 12:2.

Brit Chadasha-Renewed Covenant-Matthew-Revelation:

Matthew 5:45, 13:6, 13:43, Matt. 17:2, 24:29, Mark 1:32, 4:6, 13:24, 16:2.

Luke 4:40, 21:25, 23:45. Acts 2:20. James 1:11. 1 Cor. 15:41. Eph. 3:26. Rev. 6:12, Rev. 7:16, 8:2, 9:12, 12:1, 16:8-9, 19:17, 21:23, 22:5.

Sefer Yahshar 68:15-The sun in circuit in the sky over the earth is caused by the earth's rotation, not the sun's orbit.

Yahshar 88:64-65-Again YHWH froze the orbits of the moon and earth matching the sun and nothing moved, **so it appeared that the sun stopped moving**. Later the orbits of the earth and moon were released. Yahshar 89:8.
